SUDDEN DEATH OF O. E. YOUNG

A Stroke of Apoplexy the Cause.

AT 2 SATURDAY FUNERAL

Services Will be Held at the Residence, the Rev. J. E. Diwas 45 Years Old and Unmarried-Was One of the Best Known Lawyers of the County, and was Prominently Identified with the Democratic Party-Ex-Mayor and Ex-Solicitor.

The death of Otto E. Young occurred at 11 o'clock Wednesday night, the result of a stroke of apoplexy. Mr. Young had been in ill health since Sunday. While driving on that day, he complained of feeling unwell, and upon his return to his home, was violently ill for a time. He suffered intensely with pains in his head. Tuesday, however, he seemed much improved. On Wednesday he became delirious, and at 2 o'clock in the afternoon, bleeding at the nose and ears began, indicating that a blood vessel in the brain had burst. All hope of his recovery fled, the physicians being forced to admit that death was but a matter of a few hours.

Mr. Young was born in Massillon, November 29, 1857, a son of Mr. and Mrs. Michael Young. His father and four brothers and sisters survive him. The brothers and sisters are William Young, of Oakland, Cal.; Miss Flora Stelling Young, Charles Young and Mrs. Ida Murphy, of this city. The mother of the deceased died four years ago. Mr. Young never married. He made his home with his father, in Richville avenue.

After his graduation from the Massillon high schol, in 1876, Mr. Young began reading law in the office of the clients' interest, and was always cour- Stark county bar, died suddenly at gates to the convention. This delegation made, there would be no end to to enter the room. Gigante, the murlate Judge Anson Pease. He was admitted to the bar May 10, 1880, and three days thereafter he was elected city solicitor, to which office he was afterwards elected several terms, the last being that ending 1901. He was also mayor for a short time, serving the unexpired term of L. C. Cole, resigned. Mr. Young was twice a candidate for probate judge. He was a prominent Democrat, regularly being called upon to represent the local Democracy at county, district and state conventions

The firm of Pease, Baldwin & Young was formed in 1893, After the death of Judge Pease, December 16, 1896, the firm became Baldwin & Young, the seinor member being Frank L. Baldwin. Mr. Young was the counsel and a director of the Massillon Telephone Company, recently absorbed by the Stark Telephone Company. He was also counsel for the Northern Ohio Traction Company, which formerly owned the local electric street car lines, having secured the franchises under which the lines are now being operated.

Funeral services will be held at the late residence of the deceased at 2 o'clock Saturday afternoon. The Rev. J. E. Digel, pastor of St. John's Evangelical church, will officiate. The Massillon lodge of Elks will attend the services in a body.

It is expected also that the members of the Stark County Bar Association will attend the funeral in a body. Prosecuting Attorney R. H. Day and Judge Fawcett have been named a committee to arrange for a floral tribute.

HIS FELLOW ATTORNEYS.

The suddeness of Mr. Young's death was a general shock to citizens, and to no class more so than the local legal fraternity.

Attorney F. L. Baldwin: Mr. Young was a law student in the office of the late Anson Pease when the latter and I became partners in March 1878. He became an admitted attorney in 1880, practiced law alone until Judge Pease retired from the bench in February, 1893, when we three became partners. Having been in the same office with him continuously since 1878 I have known him intimately. He was a great student of the law, and when he finished the study of a question he knew both sides of it thoroughly. He entered into the trial of causes confidently and prepared, and I think it may truly be said that as a rule he was successful—as much so as: lawyers usually are. He was also tact-

ways favored adjustments. He had a very good clientage that will surely miss him now that he has gone. His AU knowledge of German brought him many clients and friends. Exceptionably amiable in disposition from a school boy up, he was ever cheerful, bright, cordial, interesting in conversation, and devoted to, and beloved by his friends. Apart from his family no one will miss him more than I. or more regret his too early death.

Attorney George B. Eggert: Mr. Young was upright and honorable in all his dealings. He possessed more than ordinary ability both as an office and trial lawyer. My relations with SINCERE RECRET EXPRESSED Mr. Young have always been pleasant and I greatly deplore his taking away.

County Prosecuting Attorney R. H. Day: Mr. Young was a genial wholesouled man, whose kindly and genergel Officiating-The Deceased ous heart prompted him to noble action. As a lawyer he was true to his clients' interests, and worked hard and faithfully for the success of his causes. His presence in the community will be greatly missed.

"The death of Mr. Young is a sad blow to me," said Attorney Wil-Massillon's best citizens, as well for Massillon to attend the funeral of as one of its most prominent attor- | Otto E. Young, who for years was a neys. In the prime of life, he was at his best as a lawyer, and his death and practitioner in the Stark county is doubly sad because of its sudden-

, Attorney R. A. Pinn said: "Mr. Young was one of Massillon's brightest younger attorneys, and undoubthim. By his death Massillon has sustained a severe loss."

Attorney W. S. Spidle: I have always regarded Mr. Young as a good, upright man in every respect, a faithful counsel, and one of the leading J. P. Fawcett acted ass ecretary. Atwith such suddenness as to seem al-address on the worth and ability of most beyond belief.

A NEW CRATER FORMED.

Scientists Predict Another Violent Eruption Soon.

Fort de France, May 24.-A downpour of rain on Thursday washed the ashes from the vegetation on the mountains back of St. Pierre, and for a short time during the day the clouds disappeared and the mountain was clearly seen to the top. Captain Mc-Lean, of the United States cruiser Cincinnati, who has carefully observed Mont Pelee, agrees with other experts in reporting that a new crater has been formed below the old one. In the new crater there is a great einder cone, more than one hundred feet high, from which steam and volcanic

matter is constantly pouring. It is now the unanimous opinion of the scientists that this is an explosive volcano, no real lava or moya rock material having been femitted, only mud, steam, gases and fragments of the old crater beds. The scientists compare the mountain's outthrow to the steam of a boiler in which the pressure rises to bursting point, and they think it possible that a more violent outbreak may occur.

The scientists remark that the ex plosions have occurred at progres sively longer intervals, and that they have also been progressively more violent. Thus there had been three light eruptions of ashes. On May 5 there was an overflow of mud, which caused the destruction of the Usine Guerin; on May 8 there was the outburst which destroyed St. Pierre, and on May 20, or after an interval of twelve days, the last tremendous outburst occurred. A new period of rest is now on, and one of two things may happen. The pressure may be confined for a still longer period and then explode with still greater [violence, spreading destruction over a vast area, or the mountain may remain quiescent for another half cen-

GENERAL

Will Not Represent Secretary of War.

Foraker Charges House With Treating Senate in a Disrespectful Manner-One Hundred and Five Pension Bills Passed by the House.

Washington, May 24.—The President

has revoked the old executive order of

August 29, 1901, by which the lientenant general commanding the army and the adjutant general in turn are to assume the duties of secretary of war in the absence of the secretary and the assistant secretary. The President's order of revocation is dated Thursday and leaves the department without a head in the event of the absence of the secretary and assistant secretary, unless such head is specifically designated on each oceasion. Both the secretary and assistant secretary were absent yesterday, but Secretary Root, before he left yesterday morning, issued a special order deignating Chief Clerk, John C. Schofield, "to sign requisitons upon the treasury and other papers requiring my signature, during my temporary absence from Washington on the 23d of May, 1902, and until my return or the return of the assistant secretary of war."

The army appropriation bill with the message from the House asking for the conference, with instructions to its conferees not to agree to the Senate amendments relating to the conestablished military posts, thus striking out the appropriation for such favorable. He will not be removed buildings in Manila, was laid before from the workhouse hospital to his the Senate yesterday. Mr. Spooner said he thought the procedure of the House was inadmissible, and if the Senate acquiesced now in the proposiin the Eighteenth district, will have Foraker suggested that the Senate headquarters in the parlors of the Ken- merely insist upon its amendments nard House. Chairman Agler says that and thus send the bill back to the the Stark county delegates will meet at | House. He said that while the House had been exceedingly disrespectful, the Senate did not desire to be disrespectful to the House. No action was

The House devoted the day yesterday to private pension bills and to a few other minor measures. Mr. Loud, of California, criticised the special pension tegislation as a disgrace and drew emphatic responses from Messrs. Sulloway, of New Hampshire; Sulzer, of New York, and Miers, of Indiana. In all 105 private pension bills were passed. The House adjourned until Monday, in order to participate in the Rochambean ceremonies today.

THE STRIKE SITUATION.

Miners' Officials Watching Soft Coal Shipments.

Wilkesharre, Pa., May 24.-Yesterday was one of the dullest days (around the miners' strike headquarters that has been experienced since the suspension began a week ago last Monday, and President Mitchell had no information to impart upon any phase of the Wednesday morning. Giganti came situation.

President Mitchell is keeping a sharp watch on the shipment of bituminous coal. This was shown today when he denied a report published that there was an unprecedented movement of soft coal into the anthracite territory. He said that if such a thing was true he would surely know it. The United Mine Workers have a complete system, it is known, by which the national president is kept informed of the fexact number of cars of soft coal that are shipped from the mines, and also as to their destination. This is made possible by the co-operation of miners and railroad employes.

MINTING IS SOLD.

Fast Trotting Horse Bought by O. M. Clay.

W. A. Pietzcker, Thursday, sold Minting, bay stallion, to O. M. Clay. The consideration is said to have been \$600. Minting is a trotting horse, and has a mark of 2:171/4. He was brought to Massillon by J. C., Streetor. Minting has seen much track work, though Mr. Pietzcker has not campaigned him for several years past. track again, it is thought.

BURD'S HALL, JUNE 18.

Graduating Exercises of St. Mary's School.

The commencement exercises of the graduating class of St. Mary's parochial school will be held in Burd's hall on June 18. All the classes will be represented on the programme, which will consist of recitations, orations and essays. Father Kaempker will also deliver a brief address. The member of the graduating class who receives highest honors will represent the class at the exercises.

At the close of the programme Father Kaempker will make the presentation of diplomas. There will be some members who will receive diplomas for having finished the entire course and others will receive diplomas for having only completed parts of the course. The full course includes the business course in addition to the course of studies.

MUCH BETTER.

of Recovery.

His Physicians Confident

GIGANTE IS STILL IMPROVING.

Murderer Saw the Funeral of His Victim Pass the Workhouse, but Was Not the Least Affected-The Bullet Passed Entirely Through Gigante's Body.

Canton, May 24.—Guard Homer Stone is doing nicely and his physicians are now confident of his recovery. He has chances have continued to grow more home before next week. In the meantime the attending physicians insist upon absolute quiet and no visitors outside of immediate relatives are allowed derer, is also holding his own. He has had no change for the worse and his temperature is but a half degree above normal. The physicians are now of the opinion that the bullet wound in his abdominal region passed through his body without any injury to his stomach or bowels of a dangerous nature.

Gigante viewed the funeral procession of George W. Jacob from his cot, near a window. He watched the procession with seeming indifference and was not in the least agitated as he saw the body of his victim being borne to its final resting place.

GIGANTI A BAD MAN. Arrested at Akron Last Fall on

a Serious Charge. Charles Giganti, who shot and

killed George Jacob, and it is feared. mortally wounded Guard Stone, at the workhouse, Wednesday morning, has a bad record, and in addition to many lawless acts in Canton has been under arrest in other places. The Akron Beacon Journal says: Charles Giganti, an Italian, who was arrested November 22 for attempting to marry Miss Mary Allen, shot and killed George Jacob and dangerously wounded Homer Stone, guards at the Canton workhouse. to this city last winter and lived with his wife at the Broadway house and was employed by the Enterprise Manufacturing Company. He made love to a young girl and they were about to marry when her mother had him arrested. He was tried, fined \$25 and costs and given thirty days in the workhouse, but the sentence was suspended on condition that he get out of the city, which he did. going to Canton, where he shortly secured a workhouse sentence for driving a horse to death. Giganti is a man about 23 years of age, but looks as though he is not more than 16 years old. At the time of his arrest he was said to be a bad man.

THE WAR AT AN END.

London, May 24.—A member of the government said today that the war in South Africa is at an end, but that it will take time for the Boers to confer with their followers, and this will delay the announcement.

DEATH LIST CROWING.

MONDAY, MAY 26, 1902

According to statistics compiled by Commissioner of Labor Carroll Wright, a conservative estimate of the The state department at Washington wealth of this country is \$95,000,000,-000. The total money in the United States is \$2,500,000,000, or about \$32 per capita, as against \$14 in 1860. The average amount due each saving bank depositor in the country is \$409 and it is interesting to note that the saving sale, and at the coming election of deposits alone exceed the actual total of money and is ample to cancel the deavor to secure a majority. Failing entire debt of the federal government.

Right on the heels of the refusal of the operators of the authracite mines to give the miners an advance of five percent in wages, on the ground that it would necessitate an increase in the price of coal of ten cents a ton, to which the public would object, comes an advance of fifty cents per ton. The mines had not been idle a week when the price of coal in New York was higher than at any time in thirty years.

That the gravest fears are entertained for the future of the island of Martinique is indicated by the order from the French minister of colonies to the governor of the island to prepare for the removal of the entire population. Nothing can better tell the story of the awful damage wrought and the state of terror which exists than this brief order. Out of a population of nearly two hundred thousand, one-fifth have been killed, the homes of one-half the people have been utterly destroyed, and all that are now left on the island live in constant dread.

The cry of the opponents of the oleomargarine bill that its passage "has destroyed a legitimate industry" is sheer nonsense. The plants engagsold for just what it is, because, uncannot get itself accepted withoutmasquerading as something which it is not, has no claim to consideration. When the bill shall become operative. the price of oleomargarine will fall to a reasonable figure simply because the bogus butter cannot then be sold as butter.

The bill introduced in the Cuban congress providing for the pardon of all Americans now confined in prisons or awaiting trial in that country will probably become a law, as Cuban sentiment is said to be strongly in favor of its adoption. Should the bill be adopted, it will result in the liberation of Rathbone. Neely and other Americans who have disgraced the country they represented. There are other ways in which the Cubans could show their gratitude for the services rendered by the United States which would be much more acceptable to the people of this country. Turning loose a number of men who have been convicted of crime, and many others held on suspicion, merely because they are Americans—a majority of whom were guilty, or charged with violations of the laws as administered by United States authorities, is scarcely complimentary to the American people.

Senator Dolliver, in his recent speech on the Philippine bill, put the question accurately when he declared that under no circumstances will the United States relinquish the islands, and the only way the Democrats can change it is to get control of all the departments of the government, an event that seems exceedingly remote at the present time. We acquired the archipelago by a regular treaty, fought for it successfully against a native element that doubted the ability of the United States to hold the new territory, and the Republican party says clearly, and without waste of words, that the Philippine territory is an integral part of the soil of the United States. Furthermore, the party just as clearly and emphatically declares that the islands will remain so just as long as Republicans have control of national administrations or the power to prevent the proposed Democratic policy of surrender.

The manner in which the United States ruled the island of Cuba from the time the flag of Spain was lowered until the Cubans took charge of the affairs of state, has been a model in governing and in guiding the inhabitants in self-government. The abili- & Co., Binghamton, N. Y.

ty with which the task of upbuilding has been executed and the broad intelligence and sure perception with which the peculiarities of the people have been dealt with during the process reflect the highest credit upon the political understanding and the administrative talents of the men whom the United States sent out to exercise its authority. What better proof could there be than this that the charges that United States government in the Philippines has not been wise and considerate and correct are the baseless creation of spiteful imagination or shameless partisanship: The more the American government of the Philippines is analyzed and revealed, the more carefully and better conceived in its purposes and the more admirable and gratifying in its results will it appear.

Denmark is on the brink of a political revolution over the ratification of the treaty for the sale of the Danish West Indies to the United States. has applied for an extension of the time for ratifying the treaty, and Denmark will doubtless grant the request, as the limit now fixed will expire before the rigsdag can again assemble. The government favors the members to the landsthing will enin this, it is said the landsthing will be dissolved, and that even the members appointed by the king for life will be dismissed. The United States wants the islands, needs them because they furnish a splendid site for a naval station at a point in close proximity to the passages leading to the proposed isthmian canal, and Denmark wants the five million dollars offered for them. The treaty will be ratified and the transfer made.

"To Cuba independence and selfgovernment were assured in the same to the letter this pledge shall be performed," was a declaration in the Republican platform of the last presidential campaign, and the pledge has been redeemed. The work of the past four years, which resulted in the independence of Cuba, was carried to a successful issue by a Republican administration, and is now a matter of history. Every act of the Republican administration in regard to Cuba has looked to the fulfillment of the assurance by congress that the inhabitants of Cuba should be at liberty to form an independent government of their own, at their option. This was one of the tasks ahead in 1896, though not foreseen at the time. It has been faced and completed with charactered in its manufacture will continue istic Republican capacity and fidelity. in operation, but the product will be Doubts were expressed by the powers of Europe regarding the entrance of der the law, it cannot be colored to Cuba into the family of nations, and imitate butter. A "pure food" which the Cubans themselves were skeptical of the sincerity of the United States. There was ground for doubt, for the records of diplomacy contain many instances in which similar pledges were broken, and upon the usage of many other countries was based the suspicion that the United States also would find some way to nullify the position on Cuban independence annonneed before the declaration of war in 1898. All the questionings of motives and purposes are at an end forever, and Republicans can point again to the fact that their platforms are made to be carried into effect.

LORD PAUNCEFOTE DEAD.

Succumbs to Heart Disease Early This Morning.

Washington, May 24. - Lord Pauncefote, British ambassador, died at 5:30 this morning. About 2 o'clock he developed a weak heart condition, became unconscious and did not rally.

No one would ever be bothered with constipation if everyone knew how naturally and quickly Burdock Blood Bitters regulates the stomach and bowels.

Over-Work Weakens Your Kidneys.

Unhealthy Kidneys Make Impure Blood.

All the blood in your body passes through your kidneys once every three minutes.

The kidneys are your blood purifiers, they filter out the waste or impurities in the blood. If they are sick or out of order, they fail to do their work. Pains, aches and rheu-

matism come from excess of unc acid in the blood, due to neglected

kidney trouble. Kidney trouble causes quick or unsteady heart beats, and makes one feel as though they had heart trouble, because the heart is over-working in pumping thick, kidneypoisoned blood through veins and arteries. It used to be considered that only urinary troubles were to be traced to the kidneys, but now modern science proves that nearly all constitutional diseases have their beginning in kidney trouble.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy is soon realized. It stands the highest for its wonderful cures of the most distressing cases and is sold on its merits

by all druggists in fifty-cent and one-dollar sizes. You may have a sample bottle by mail Home of Swamp Root. free, also pamphlet telling you how to find Mention this paper when writing Dr. Kilmer committed suicide here

Dead or Entombed In a Coal Mine, In British Columbia.

LITTLE HOPE OF SAVING LIVES.

Only 24 Out of 133 Were renown to Be Out of Danger-Reason of Explosicn Unknown-Details of the Accident Were Meagre.

Vancouver, B. C., May 24.—One of the most terrible mine disasters in the history of the frequent accidents in British Columbia occurred Thursday night in the Crow's Nest Coal company's mines at Fernie, B. C. Over 100 men are either dead or imprisoned in the mine, and little hope is entertained of rescuing any who may yet be alive. Fernie is 300 miles up country and the limited telegraph facilities have not enabled complete details of the disaster to be sent out. A special last night from Fernie,

in part, says that the explosion took place Thursday night at 7:30. The management has a list of 133 men who are known to have been in the mine and there were probably others. Of these only 24 are known to be safe. It is feared that few, if any, of the remaining 109 are now alive.

What caused the explosion had not yet been definitely ascertained. Many of the miners were ignorant foreign ers and one of the mine shafts was always more or less gaseous. It was reported in Fernie last evening that the em'osion resulted from the use naked lama. Another theory was that a miner struck a match, exploding the gas, which was almost always voice by which war was declared, and present in No. 2 shaft. The true cause of the disaster will probably of stagnation. The higher prices in not be positively ascertained, for it is ever reach the outer air alive or be took place in No. 2 shaft of the mine, No. 3, with which it was connected.

The scenes at the mines and in the village of Fernie were heartrending yesterday. Hardly a house had escaped affliction. The work of rescue prevailed, assistance coming from every available source.

survivors were being besought by their relatives not to venture into the shafts even for rescue work.

VICTIMS. R. R. EARNINGS SATISFACTORY. DEFEND

Former Steel Condition Intensified by Threatened Decrease in Fuel and Labor Difficulties.

New York, May 24.-R. G. Dun & Co.'s Weekly Review of Trade, issued

today, said in part: Many minor labor controversies have been settled, but the situation in the anthracite coal region has assumed a more serious aspect. Railway earnings continue satisfactory. roads reporting for two weeks of May show gains of 6.1 per cent over last

year and 18.4 per cent over 1900. No change is reported in the iron and steel situation, former conditions merely becoming intensified by the threatened decrease in supplies of fuel and the labor controversies in certain branches of the industry.

The railways are seeking rails, rooling stock and other equipment. while con ractors require much structural material.

Print cloths are quiet at last week's decline. Weak conditions have prevailed in the cereal markets, with only a moderate volume of option in quotation. Exports of wheat, including flour, were only 3,863,568 bushels during the past week from all ports of the United States, against 5,225,130 bushels in the corresponding week last year. Small receipts of corn, amounting to only 1,263,188 bushels for the week, against 3,667,-042 a year ago, held the spot price at about 70c.

Dispatches from correspondents of R. G. Dun & Co. indicate satisfactory progress with the new corn crop and

a material increase in acreage. Failures for the week numbered 192 in the United States, against 180 last year, and i. 'n Canada, against The amendment was accepted. 22 last year.

STOCK MARKET DULL.

New York, May 24,-Yesterday's stock market was dull to the point London induced an improvement at doubtful if any man who knows will the opening here, but it was lost through mere inanition. Until the able to tell the tale. The explosion last hour there was hardly enough motive power to show any direction being repeated in a few seconds in in the movement, with the exception of some special stocks.

There was quite an active demand for the National Lead stocks, due to the expectation that the company would benefit from a proposed comwas being hurried and perfect order bination in an allied branch of the trade. The American Linseed stocks rose on rumors of a combination of The presence of coal damp was the vegetable oil interests. Presbyterian Assembly Urged by Committee on Theological Seminaries.

ACAINST THE DIVORCE EVIL.

Appeal of Protestant Episcopai Church For Aid Responded to by Resolution Passing to Appoint Committee to Co-Operate-Other Proceedings.

New York, May 24.—The Presbyterian general assembly resumed its sessions yesterday with a good attendance, and the moderator, the Rev. Dr. Yan Dyke, called up the report of the special committee on Sabbath observance as the special order of the day. The report was read by transactions and fractional changes James Yercance. It was presented to the assembly some days ago

The devotional service was conducted by the Rev. Dr. S. Hall Young, of Alaska, who, with other speakers, made grateful reference to the accomplishment of creed revision.

During the consideration of the report of the special committee on Sabbath observance, R. Carothers, of Grand Rapids, N. D., moved to strike out a part of the report in which card parties on Sunday are condemned. "It would convey the idea that the general assembly of this church ap proves of card parties on other days of the week," said Mr. Cartothers.

Report on Church Erection.

The report of the standing committee on church erection was next called up. The report was presented by the chairman, the Rev. Dr. Arthur C. McMillan, of this city.

The board commenced the year with \$193,275 and spent \$205,269. The board begins the coming year with an empty treasury and only contributions received after the annual report had been completed enabled it to report no debt. Two hundred and fiftynine churches were aided during the year to erect new structures.

The report, with its recommenda

tions, was adopted. The Rev. Dr. Hubball, of the New York Sabbath committee, was then introduced and briefly described the work of that organization.

Judge Robert N. Wilson read the report of the special committee on vacancies and supplies.

The committee on vacancies and supplies was divided and a minority report, signed by the Rev. Robert Sample, D. D., and the Rev. Dr. Johnson, of the McCormick Theological seminary, Chicago, was presented.

Majority Report Adopted.

The minority report was read by Dr. Sample. It advocated the estabed. Pacific Mail's 21/2 point rise was hishment of a central bureau to bring stocks made wide advances and the tors together. The majority report

The majority report was adopted and the special committee reap-

In spite of the action taken by the committee on bills and overtures the assembly, by a vote of 205 to 139, decided that the protest should be sent At this point a recess was voted.

> Vice Moderator David R. Noyes presided at the afternoon session. The President Revoked Order by Which Rev. George Dugan, of Troy, N. Y. presented the report of the standing ally finds tault with the small contributions. The report was adopted.

the report of the committee on church polity was next presented. It committee of the general association of conference on marriage and divorce, and that overtures on the same subject had been received from the Presbyterians of Baltimore and Wash The bond market was dull, but ington. The committee, in part, firm. Tot ! only par value, \$2,290, recommended the following:

To Fight Divorce Evil.

"Resolved, That in response to the fraternal request of the committee of the Protestant Episcopal church, the reneral assembly of the Presbyterian church in the United States appoint a committee of nine-five ministers and four elders-to confer with the St. Paul, Minn., May 24.—The fore-committee of the Protestant Episcochurches, with a view to securing The American Raptist Publication some concerted opinion and action by society yesterday followed the lead the churches of America relative to of the American Baptist Missionary divorce and re-marriage, and so to union in taking addtonal steps to affect public opinion that uniform ward closer co-operaton in the work legislation may be enacted by the of the societies. These two associatistate that will conserve the family in

"Second-Relative to that part of the overtures, from the Presbyterians of Washington and Baltimore, which asks that constitutional steps be taken to amend chapter 24, section 6, of the confession of faith so that patch to the Hamburg Deerenhalle the clause (and such wilful desertion from Guatemala says that the town as can in no way be remedied by the of Quezaltenango has been wholly de church or civil magistrates) be ed three-questirs of a minute. Busi mends no action until the conference report is made."

The resolution was passed. The report also recommended the crea-

tion of a new presbytery in Porto Rico, and it was passed.

Twentieth Century Fund.

Rev. Dr. Marcus A. Mownson, chairman of the special committee on the twentieth century fund, then present-

ed his report. Rev. Dr. William Henry Roberts, stated clerk of the general assembly and treasurer of the twentieth cen tury fund, reported a good total of receipts during the last two years for the fund, amounting to \$7.652,801.84. In addition to this, Dr. Roberts said that about 1,000 churches had paid off their mortgages and freed themselves from debt. This was greeted with great applause, and a vote of thanks given the committee.

The report of the committee on theological seminaries, made by Rev. Dr. James F. Riggs, of East Orange, N. J., regretted the falling off in the number of theological students, and asked for increased contributions. Appended to the report was a resolution in which care is advised in the selection of professors for theological seminaries, in view of the "restless spirit of the times."

Defense of Scriptures Urged.

In this connecton the report says: "And in view of the assaults recently made on that which we regard as the vital truth as to the nature and inspiration of the Scriptures, and particularly in view of the assaults on the integrity and authority of the Old Testament, we do reaffirm the historic faith of the church in the oracles of God., as the veracious record of His (Valings with men from the beginning of human history. It is our unshaken belief that these sacred books were written by holy men of old, who spoke as they were moved by the holy spirit, and that this fact has the solemn witness of the apostles and of the Lord Jesus Christ himself."

At 5 o'clock an adjournment was

taken until 9 o'clock this morning. The session today will be given up to the reception of fraternal delegates from other denominations. At 2 o'clock the commissioners will leave by a special train for Princeton, where the faculty will give them a

A telegram of congratulation was received from the Baptist anniversary convention in session in St. Paul.

ISLANDS OURS BY TREATY.

Bishop Thoburn Defends Occupation of Philippines.

Washington, May 24.--Bishop Thoburn continued his testimony before the Philippine commttee of the senate yesterday. His testimony was in part:

He was examined about the various phases of the situation and especially as to the lights of the United States to dominate the Philippine islands. He said in reply to one queston that chaos would result if England were to withdraw from India. England bail advanced civilization in the far east. Hong Kong and other places were made great points of commerce.. Hong Kong, he said, was better governed than Chicago and human life

was safer there than in Chicago. He said that the United States had more rights in the Philippines than it had over the American Indians, because the islands were acquired by treaty. He was asked as to whether he thought strong countries had the right to subjugate weaker ones by force and said the question did not apply to the United States and the Philippines, because the islands were

acquired by treaty. The committee refused to call as witnesses senators and members who had visited the imianda.

GENERAL MULES CANNOT ACT.

He Could Be Temporary War Secretary.

Washington, May 24.-The president has revoked the old executive order of August 29, 1901, by which the lieutenant general commanding the army (General Miles) and the adjutant general (General Corbin) in turn are to assume the duties of secretary of war in the absence of the secretary and the assistant secre-

The president's order of revocation, which is dated Thursday, leaves the department without a head in the event of the absence of the secretary and assistant secretary, unless such head is specifically designated on each occasion. Both the secretary and assistant secretary were absent yesterday, but Secretary Root, before he left yesterday morning, issued a special order designating Chief Clerk John C. Scofield "to sign requisitions upon the treasury and other papers requiring my signature, during my temporary absence from Washington. on the 23d of May, 1902, and until my return or until the return of the as-

sistant secretary of war." It is presumed that similar special orders will be made designating Mr. Scofield to perform these duties whenever the secretary and assistant sec-

retary are absent in the future. Secretary Root has issued an order which revives an old order of Jan. 18, 1886, providing that in the absence of the head of a bureau the senior officer of the department or corps, on duty in the bureau, shall assume temporary charge. The significance of the order ses in the limitation "on duty in the bureau." Under the application of this limitation no officer on duty outside of the bureau could assume charge, as does Colonel Ward, of General Miles' headquarters, in the case of the adjutant general's office, but General Corbin's duties would ordinarily be assumed by Colonel Car-

THE CLASS OF 1902, MASSILLON HIGH SCHOOL.

The number of high school graduates this year will be thirty-three. The commencement exercises will be held at the Armery on Friday night, June 20, instead of June 25, as was first proposed. Prof. Graves is drilling the class in several songs which they will sing on graduation night. The class will be represented by eighteen members, who will deliver orations, readings and essays. The names of the members of the class are as follows:

Ruth Pease. Bessie Moyer. Carrie Arthur, Lillian Digel, Ada Evans, Olive Smith, Hannah Brown, Estella Digel,

Hazel Johnson, Marian Gates, Luella Sibila, Elma Seufts, Louisa Nill, Elizabeth Miller, Nellie Oberlin, Emma Hipp,

Verne Benedict, Homer Kline, Floyd Kline. James Carnes, Herman Albrecht, Melville Kirchhofer Herbert Schiefer, Paul Rigdon,

Homer Lantz, Joseph McBride. Aaron Snyder, Charles Chidester, Clarence Lipps, Glenn Heckert, Joseph Reise, Howard Yost,

Blaine Bechtel.

NEWSPAPERARCHIVE®.

A BANANA TREE.

The Fruit Grows Small End Up and Is Cut While Unripe. Contrary to popular belief, bananas

do not grow on the tree as they hang in the grocery, but with the small end of the fruit pointing upward-to all appearances upside down. There is probably no other fruit of

such universal consumption about which so little is known to the average person as the banana. Something like 100,000,000 bunches are annually eaten in this country alone, but scarcely one man in a thousand not connected with the business knows what a banana tree looks like.

The fruit is never allowed to ripen on the tree, but is cut half or three-quarters "full"—that is, half to three-quarters developed-according to the dis-Pupils Asked to Contribute tance it is to be shipped, and comes to maturity by feeding from the stalk, which contains a large amount of sap. Bananas cut in this way attain practically the same size as if allowed to bunch becomes too much of a burden for its support and either falls or breaks the tree and ripens on the

> An Anecdote of Wordsworth, A contributor to the London Spectator thus writes to that journal:

Your interesting article on "Vastness and Isolation" recalls to my mind Wordsworth's own interpretation of the lines-

Those obstinate questionings Of sense and outward things.

Fallings from us, vanishings-Bonamy Price. One day as he was walking with the poet in the hills he asked him what he meant precisely by the words "failings from us, vanishings." Wordsworth's answer was to this effect: "Sometimes I find myself in a mood in which the whole material universe seems to fall away. The sense of outward things is lost. Nothing remains but an immaterial self, detach-Inasmuch as the swimming season ed from all physical conditions. In order to get back into the known world ? of consciousness I have to clutch at something-so." Here he grasped the struck by the story at the time and made a note of it,

George Washington's Sobriquets.

Washington was called by many sobriquets. He was first of all "Father of His Country." "Providence left him childless that his country might call him father." Sigourney calls him "Pater l'atriæ;" Chief Justice Marshall, "The Cincipnatus of the West." For having a new world on his shoulders he was called the "Atlas of America." The English soldiery called him by the sarcastic nickname of "Lovely Georgius." Red Jacket, the Seneca Indian Forest." The Italian poet Vittorio Al-If the expected samples arrive this fieri called him "Deliverer of America." In The Gazette of the United States he was called the "Savior of His

HONEY AS A FOOD.

it Is of Great Valve as a Medicine and Highly Nutritions.

Starch and sagar when eaten underto a digestive change before they are assimilated. In honey this change has been made to a considerable extent by the bees. It is easy of assimilation and concentrated and furnishes the same element of nutrition as sugar and starch-imparts warmth and energy, As a medicine honey has great value and many uses. It is excellent in most lung and throat affections and is often used with great benefit in place of cod liver oil. Occasionally there is a person With whom it does not agree, but most people can learn to use it with beneficial results. Children, who have more entural appetites, generally prefer it to butter. Honey is laxative and sedative. and in diseases of the bladder and kidneys it is an excellent remedy. It has much the same effect as wine or stimulants, without the injurious effects, and remain on the tree, in which case the 18 unequaled in mead and harvest drinks. As an external application it is irritating when clear and soothing when diluted. In many places it is much appreclated as a remedy for creup and colos. In preserving fruit the formic acid it contains realles a bet

In early times, it is said, Palestine have far more of both today than the people of any age ever had. Honey does not injure the teeth as candies do. —Health.

Patti Made His Reputation.

Adelina Patti was not always such a "gold mine" to managers as some may suppose, says Lestic's Weekly. When she visited New York in 1880, her manager, Signor Lugo, overreached himself by starting out on a ten dollar admission basis, and the venture was a financial failure, notwithstanding Patti's great artistic success. She sang to a fourteen hundred dollar house on the first night and on the second to \$400. She got discouraged, as it was her own venture, and gave it up.

The late Henry E. Abbey, who was bold in his speculations, then engaged her and her company at \$5,000 per concert. He began at Wallack's old thea ter at Thirteenth street, giving scenes of opera, and the concerts there averaged over \$7,000 a performance, but he lost in the out of town concerts \$20,

A little later, being asked by De Vivo to take Patti to San Francisco, Abbey replied: "My dear De Vivo, I have got enough of Patti. I lost \$20,600, but I made a reputation.'

THE NEW FROCKS.

ALL THE NOVELTY IS IN SLEEVES AND GARNITURES.

Sleeves Large Above the Wrist and Tight From Elbow to Shoulder. Smart Dust Clouks to the Fore Again-Summer Fabrics.

The attention of the authorities seems to have been turned almost entirely of late to the question of sleeves. There is scarcely a dress of any kind which does not hear sleeves large above the wrist and tight from the shoulder to the elbow. These look extremely well when made of lace and worn on an evening gown, which is cut low to show a collar of lace round the decolletage. Newest and best costumes still exhib-

t a predilection for pastel tints, brown

DUST CLOAKS FOR THE RACES. being also considered very worthy of

regard, and a soft deep tone of cream,

almost the shade of the innermost husk of a chestnut, is an attractive arrival. The revival of tassels has brought out tassels of wool, tassels of silk and tassels of thread, made in every conceivable shape and fit to adorn dresses of every possible kind. In former days tassels were used in association with cords. Now, however, they find their place in combination with gathered silken trimmings, and they are made to match these. Little rounded rosettes are also among the most favored trimmings, and supreme in combination

with dresses of every sort remains lace. Dust cloaks will soon be again an object of importance. Of two shown one is in biscuit colored alpaca, with deep collar and cuffs of black satin trimmed with guipure. It is fastened at the neck with long ends of velvet terminating in oriental tags; buttons in the same style finish the pockets. The hat is in fancy brown straw, with velvet bows behind and wreath of rosebuds and teaves.

The second coat is of white linen, bandsomely trimmed with Irish guipure, and a novel shaped hat in burnt straw and black velvet ribbon is worn Wich it.

The second cut shows one of the printed foulard costumes that are now so popular and useful. It is of a delicate tint of cornflower blue, trimmed with black velvet ribbon and Flanders lace, forming a deep tapering founce, fluted basque and a kind of bolero collar with epaulets and irregular lapels. Flat crossed bands edge the tunic at the

PROMENADE TOILET.

side. The balloon sleevelets in white musifu are finely plaited in the new accordion style. Lace, white tulle, black ribbon velvet, buckle in antique silver and a tuft of roses at the left side enhance the hat.

Reru silk balistes are so elaborately trimmed with black velvet and lace insertion that they are almost invaluable for all sorts of wear in the daytime and for dinner toilet.

FOOD FOR A CHILD.

Some Things That Are Good For Fast Growing Young Polk.

A question of vital interest to the majority of mothers today is what food is best calculated to meet the demands of growing childhood as well as to supply growing child its demands for food ofttimes seem inconsistent, but in most instances it will be found that its sys tem is really in need of a certain food! substance, which can only be got by manufacturer, says: "I give all the eating an excess of the unnecessary, weight my name possesses to the enfood in order to obtain it.

and body, as with the rollicking school- powers. great. In most instances, and leaving drug store, but I do know that the rethese building up and repairing the new Pills when their kidneys are out of body, they serve to give more heat and order. energy to an already worn, tired out nature.

The virtues of whole wheat brend for the growing child are many. It supplies every need and want of the human body. It not only gives heat and energy, but is a constant repairer. stituents convert cartilage into strong, healthy bone and teeth. Sandwiches of this bread daintily put together with a th'n slice of cold meat or some meat preparation form a most acceptable lunch, and if these are incased in the waxed paper used by bakers, and which can be purchased of them, they will keep moist and fresh for hours.

Do not forget to use butter on the bread quite as liberally as if no sand wich was to be made. A certain portion of fat is absolutely necessary to the body's development as well. Sweet fresh butter or cream is the best form of fat, and a liberal use of these is quite sufficient for the body's needs.

In preparing the school function do not forget to tuck in a bit of fruit of some kind. Sweet fruits contain much nourishment, it is well to remember, dates, figs, bananas and grapes containing the most.

Juicy fruits are rich in phosphates for the blood and are easily digested as well. The excess of water which they contain forms a distilled drink, and as thirst quenchers they prove a success. It is far better to supply the children with fruit for their luncheon than to give them a food that in time works evil effects in the system.-New York Observer.

Advice For the Fat Woman.

Notwithstanding the interest shown in physical culture by people in general, the distinctly "fat" woman has not disappeared. Here is what one of the numerous people "who know" says she should and should not eat:

The woman-or man-who wishes to lose flesh will avoid sweets and starchy foods, eliminating from the bill of fare such edibles as potatoes, corn, beans, peas, parsnips, spaghetti, beets, cream and fresh breads. The only admissible drinks are weak tea without milk for breakfast and luncheon, one glass of water for dinner and a cup of hot wa-

A Pretty Muslin Bonnet For a Child. A pretty little bonnet for a child of about five years is in accordion plaited

BONNET FOR A LITTLE GIRL. straw colored muslin. The crown is composed of cream openwork, through which red velvet is run. Bunches of poppies appear on each side.

A Novel Curtain Design.

A new bonne femme curtain de sign is developed in madras whose prevailing tone is dull red, relieved by dark green and faint amber. The lot tom has an insertion of deep red fish net, which is edged with a full ruffle of the madras finished with Arabian laco. Other color effects are carried out in the same way.

Fashion's Echoes.

Opinion of Well Informed, as to Situation In South

Africa.

Last Night, if Boer Loaders Had Sufficent Control of Their Men to Compel Acceptance-May Be a Few .Bands of irre oncilables.

Berlin, May 24.-The foreign office here was advised last night from Pretoria that peace in South Africa was practically concluded. The articles of surrender were ready to be signed, with the exception that the approval of the British cabinet of the wording of the secondary provisions was awaited. The suspension of hostilities might be announced at any hour. This news, it was understood, came from the German consul.

fordon, May 24.-The Associated Press has every reason to believe that peace in South Africa is practically secured. How soon it will be announced depends, apparently, more upon the convenience of the Boer leaders than upon the inclination of the British govern. Int. The private and official advices received last night in London from South Africa all pointed to the same conclusion. The delay is technical, and to end the long war seems to be the desire of both British and Boer leaders. The latter, however, are unable to convince all their followers of the wisdom of ac quiescing to the terms of peace.

likely that the cabinet transactions were of vital import.

There was widespread belief in the best informed quarters that the end of the war has come. In fact, those persons who are best acquainted with the actual details of the present negotiations only qualified this optimistic expression of opinion by guarded reservations concerning the extent of the personal control of the Boer leaders over their commands. Were the Boers a thoroughly disciplined force, dependent upon the action of their general officers, peace would probably have been proclaimed last night, but Botha, DeWet and the other generals seem themselves unable to positively guarantee the degree to which

The delegates at Verceniging, according to information in possession of the war office, are fairly evenly divided. Consequently extreme precautions are exercised both in London and Pretoria, to prevent any premature action or report which might adversely influence the burghers.

The most pes imistic forecast heard last night only admitted that a few isolated bands of irreconciliables may he left in the field.

mons, who is in close touch with the Laurie did not give the guards any government, said to a representative of the Associated Press last night that he believed everything was settled and that the British terms would be found unexpectedly liberal.
